Perhaps very soon – perhaps later – you will wish to make a decision about purchasing a cemetery memorial.

Since 1924, Henry County Monument Works has been dedicated to providing dignified, caring memorial service. We are proud of our commitment and strive to provide complete customer satisfaction.

Our work represents the highest quality workmanship at the most reasonable cost.

We manufacture and letter **ALL** of our memorials at our plant in Paris, Tennessee. We can do custom work for our customers while eliminating the cost of a middleman. Doing our own lettering allows better quality control and guarantees the lowest price for the consumer. **We will not be undersold!**

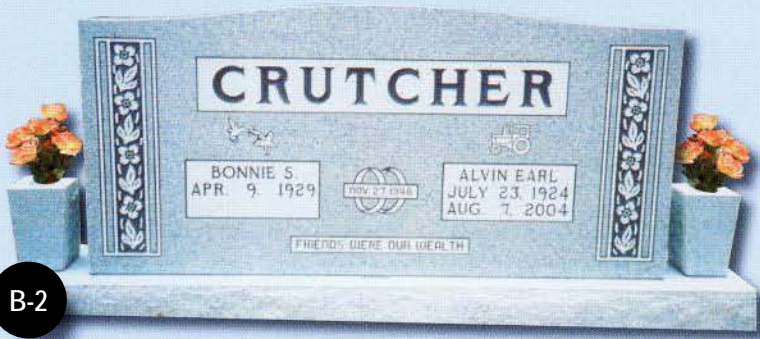

Our job is not just the erecting of headstones. It is a much higher calling. We realize that a memorial is a symbol of love, an exhibit of remembrance...a final tribute. This realization of our responsibility, coupled with careful attention to detail, has earned us a reputation for dependability.

We pledge to treat you with professionalism and courtesy. On behalf of the Travis Family, we promise to please you as we have many others throughout this area since 1924.

Every memorial we sell is guaranteed for workmanship and quality of material, and the purchaser is assured of lasting satisfaction. You also profit from the lowest cost and the excellence of finish and design. Our personal supervision and quantity purchasing guarantees the best buy in memorials.

Our company has been operated by the same family since 1924 and is now managed by a third generation memorialist. As some companies come and go, the stability of Henry County Monument Works is reassuring. If death date service or other maintenance is necessary, we will be there when you need us. Providing peace of mind for our customers is part of our tradition.

We have hundreds of designs to choose from – one to fit your personal taste. We can copy any design you have seen in any cemetery or any picture that you may have. Our diamond etching creates a personalization that cannot be surpassed. Porcelain photographs that last a lifetime are also a possibility.

At our facilities, we have the largest display of marble and granite memorials in West Tennessee. Deeper and wider lettering is preferred by those who compare monuments. The deeper lettering will wear longer and be more legible when the shallow lettering provided by other companies has faded.

It would be impossible to show every type of memorial in this brochure but be assured Henry County Monument Works can manufacture and erect all the various types seen in cemeteries today. Contact us – we hope we can be of service.
